# BEACH WALK

At first, the beach at Fort Casey may not look like a whole lot is going on. That is far from the truth! Come on a short walk to learn the basics about our ever changes beaches at Fort Casey. Why is Admiralty inlet so unique? Where does all the driftwood come from? If you are new to beach processes, this is the walk for you! You might even be lucky and see some wildlife.

This is a great adventure for adults and older children. Wear your walking shoes and a jacket.
