
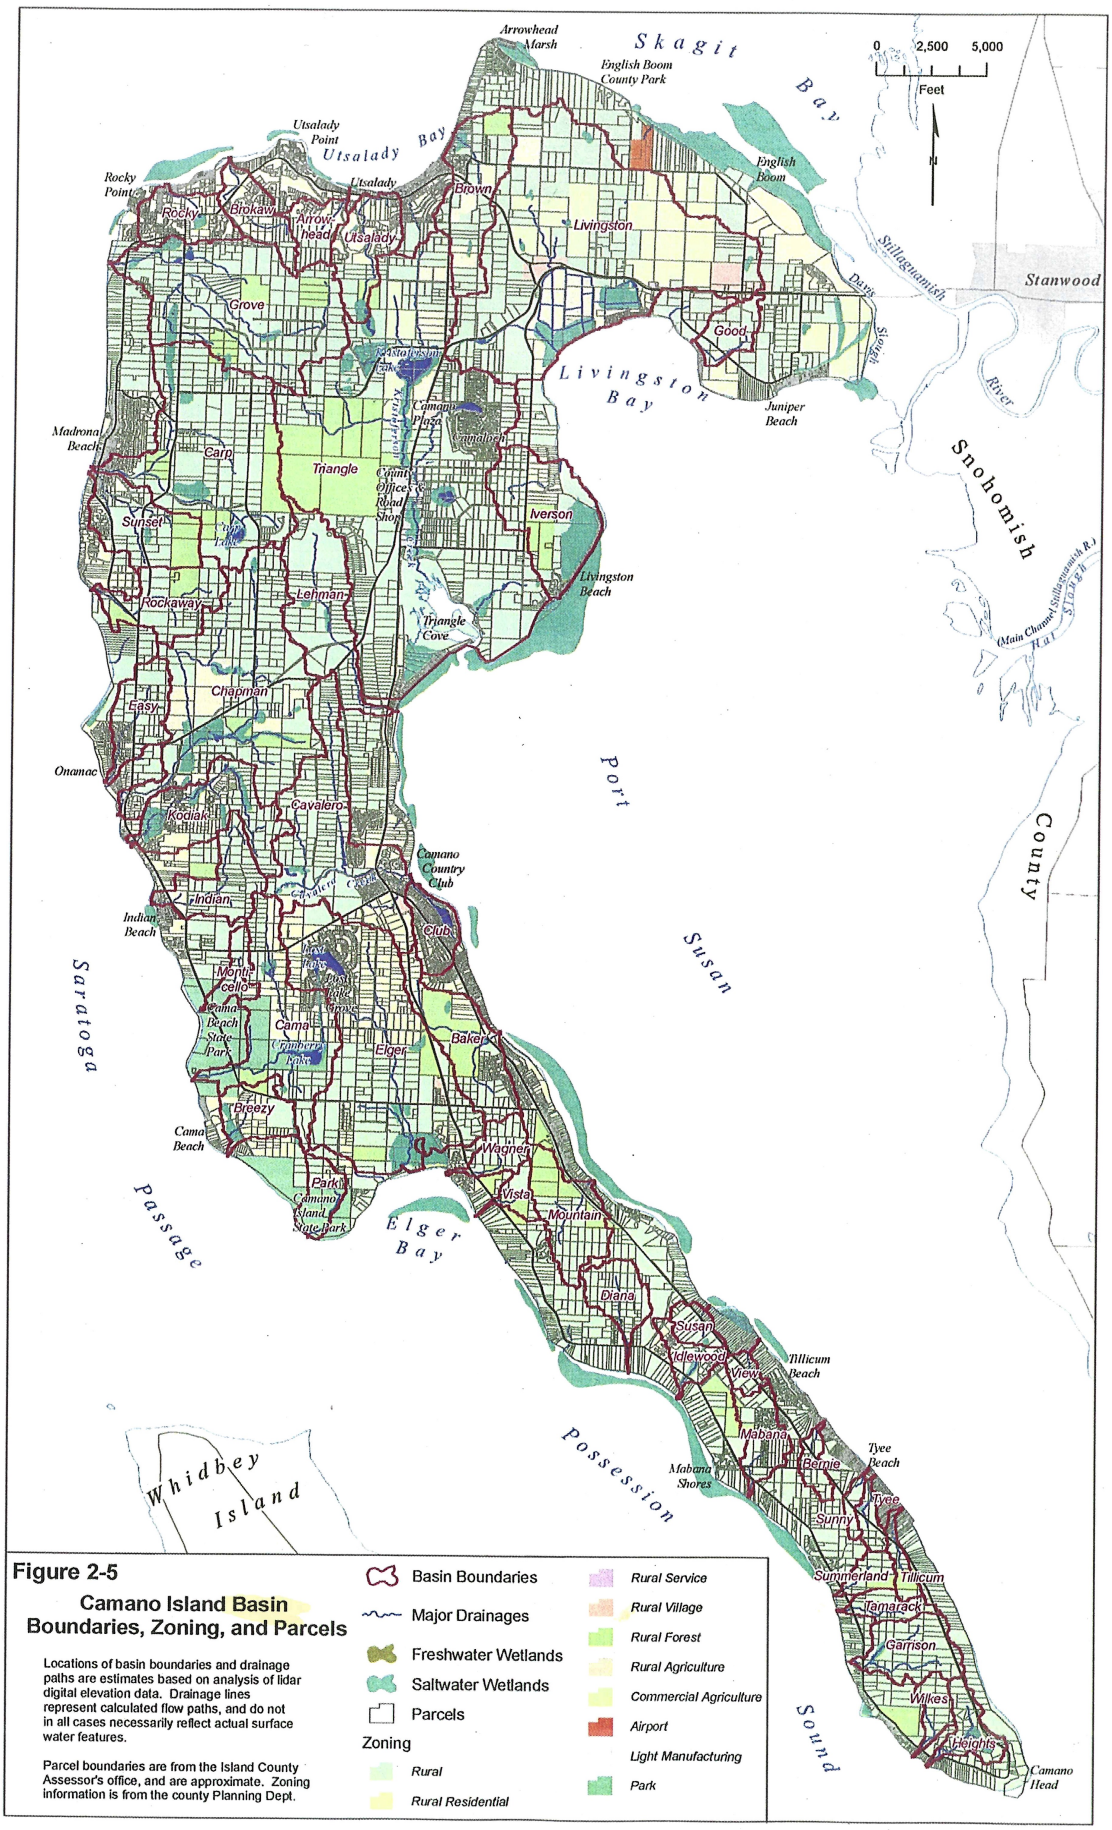

Figure 2-5

Camano Island Basin Boundaries, Zoning, and Parcels

Locations of basin boundaries and drainage paths are estimates based on analysis of lidar digital elevation data. Drainage lines represent calculated flow paths, and do not in all cases necessarily reflect actual surface water features.

Parcel boundaries are from the Island County Assessor's office, and are approximate. Zoning information is from the county Planning Dept.

- Basin Boundaries
- Major Drainages
- Freshwater Wetlands
- Saltwater Wetlands
- Parcels

Zoning

- Rural
- Rural Residential
- Rural Service
- Rural Village
- Rural Forest
